

Understanding Society Wave 3

COGNITIVE FUNCTION - INTERVIEWER RECORDING SHEET

- Write down the words in the order the respondent says them
- If respondent is saying words more quickly than you can write them down in full, just write down a '+' for each correct word or a '-' for incorrect words.
- Do NOT count repetitions - check for alternative meanings at the end of the minute (eg: 'for' and 'four', 'son' and 'sun')
- Do provide neutral encouragement if the respondent starts to struggle, eg: "Just keep trying"
